PROFESSIONAL SUMMARY

- BCA graduate and Python Backend Developer with hands-on experience in Django, REST APIs, and SQL databases.
- Skilled in building scalable backend applications, integrating databases, and writing clean, efficient code.
- Strong problem-solving ability with a passion for real-world software development.

Technical Skills

- **Programming Languages :** C, C++, Python
- **Python Expertise:** OOP, Decorators, Generators, Exception Handling
- **Web Dev:** HTML5 , CSS3, JavaScript, Bootstrap , React
- **Tools & Technologies:** Git, GitHub, VS Code
- **Coursework :** Database Management(DBMS), Object Oriented Programming(OOP), Computer Networks(CN)

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication
- Time Management
- Adaptability

PROJECTS

Enjoy Institute Management System

[Github](#)

- **Full-Stack Architecture:** Developed a responsive management platform using React.js (Frontend) and Django REST Framework (Backend).
- **Role-Based Dashboards:** Implemented secure, distinct portals for Admins, Teachers, and Students to manage roles and data.
- **Automated Management:** Streamlined institute operations including CRUD for students/teachers, digital fee tracking, and attendance logs.
- **Premium UI/UX:** Designed a modern Glassmorphism interface with smooth animations using Tailwind CSS and Framer Motion.

LANGUAGE

- English , Hindi , Gujarati , Marathi.
