SUMMARY

Python Full Stack Developer with 2+ years of hands-on experience building scalable, high-performance web applications. Skilled in developing robust backend systems using Django/Flask and creating responsive, user-centric interfaces with modern JavaScript frameworks. Proven ability to optimize APIs, improve application performance, and deliver end-to-end solutions in Agile environments. Passionate about writing clean, maintainable code and continuously learning new technologies to solve real-world problems.

SKILLS

Frontend : HTML, CSS, Bootstrap, JavaScript, React JS

Backend : Python, REST APIs, Microservices

Frameworks: Django, Flask

Database: MySQL, SQLite

Tools: Git, Docker, Postman

Concepts: OOP, MVC, API Integration, Authentication, Security

EDUCATION

BCA

Aug 2019

Shivaji Science College, RTMNU

Nagpur

PROFESSIONAL EXPERIENCE

Python Full Stack Developer

May 2024 - Present

Kavya Infoweb Pvt Ltd

Nagpur

Developed and maintained full-stack web applications using Python frameworks such as Django / Flask and modern JavaScript frameworks. Designed and implemented RESTful APIs for seamless communication between frontend and backend systems. Built responsive and user-friendly UI using HTML, CSS, JavaScript, and frameworks like React.js. Integrated third-party APIs and services to enhance application functionality.

1) Hospital Management System:

Improved user experience by implementing clean layouts and reusable components. Ensured cross-browser compatibility and mobile responsiveness.

2) RX Incredible:

Assisted in backend development including basic API handling and data processing. Enhanced performance and responsiveness of the application.

3) The Rankers Academy:

Developed backend functionalities for handling data processing and business logic. Implemented basic security measures such as form validation, authentication, and data protection. Improved system reliability and user experience through optimized workflows.

PROJECTS

1) Food Fiesta:

Developed a dynamic food ordering platform enabling users to browse menus, add items to cart, and place orders seamlessly. Designed a responsive and interactive UI to enhance user experience across devices. Focused on optimizing performance and ensuring smooth navigation across different devices.

2) Power Gym:

Developed a comprehensive gym management system to streamline member registration, subscription handling, and daily operations. Designed an intuitive and responsive user interface for managing members, trainers, and workout schedules efficiently. Implemented backend logic to handle membership plans, fee tracking, and attendance management.
